Applicants: Peter Mahr
Filed: Herewith
5 For: DISC SPEED CONTROL DEVICE

PRELIMINARY AMENDMENT

Hon. Assistant Commissioner for Patents
10 Washington, D.C. 20231

Sir:

Prior to examination and calculation of fees, please enter the following
Preliminary Amendment and the accompanying remarks.

15

IN THE CLAIMS

Please amend the claims as follows:

- 20 1. [] (Amended) Disc speed control device for use in a player or recorder of a
disc shaped information carrier to be recorded or recorded with data along data
tracks, the data being read or recorded using a pick-up [(9)], the device
comprising:
- 25 [-] frequency generating means [(2)] for generating a frequency signal [having a
frequency] representative of a rotation speed of the disc,
[-] disc actuating means [(1)] for rotating the disc,
[-] leading value output means [(4)] for generating a determined rotation speed
value,
- 30 [-] speed servo means [(6)] which receives the frequency signal and the
determined rotation speed value and which regulates the disc actuating means
in response to the determined rotation speed value,
[characterized in that it further comprises :]
[-] signal processing means [(10)] which process an output of the pick-up when
the data is being read and deliver a data frequency signal, and
